SUPER KENO

Exciting Keno Action

SCREEN DISPLAY

The colorful Red, White and Blue Super Keno card display, the final 10 Keno balls that appear on the screen and the two Blackout Bonus cards all add up to Super Keno excitement. The screen presents complete player information at all times, from cards played to total cards available, spots chosen and hits per game.

BLACKOUT and TLC & O

Two new ways to win! The player has a choice of Super Blackout or the TLC & O patterns. When Blackout is chosen the last ball drawn will blackout that number on the Blackout Display. If the T, L, C or O pattern is chosen, the entire letter must be blacked out to win. The current Blackout schedule is always presented on the video display.

SECOND CHANCE

Second Chance redraws 5 balls on any losing card. Second Chance draw uses 2 credits each time it's optioned.

SUPER KENO offers new bonuses and new ways to win. Super Keno is a variance of our original Keno game and appeals to old Keno players as well as to new Keno players alike. Super Keno presents a standard 80 number Keno card plus a special Bonus card. The Bonus card alone offers five separate ways to win! Try the new Super Keno game from Electro-Sport, and you'll see why we call new Super Keno the Ultimate Keno Game!
